[Artists Create Tools to Decode Data Collection, Sale](#)

Artists Beatriz da Costa, Jamie Schulte, and Brooke Singer have created the "Swipe Toolkit," a website with:

[A barcode decoder](#), which allows users to read the information encoded into a driver's license.

[Information](#) on how to obtain your personal data from data brokers.

[A Data Calculator](#), that shows where personal information is collected, and how much the data brokers charge for it.

[The Swipe Toolkit](#).

[The Swipe Project](#).
