The SWIPE Toolkit – What data is on your license?

By **Phillip Torrone** August 5th, 2005 12:25 am Category Uncategorized

The SWIPE Toolkit is a collection of web-based tools that sheds light on personal data collection and usage practices in the United

States. The tools demonstrate the value of personal information on the open market and enable people to access information encoded on a driver's license or stored in some of the many commercial data warehouses. [Link](#).
